

INTRODUCTION

RTL's 450mm PVC Road Marking Cone, lasts longer, is stronger and complies with NZTA's CoPTTM.

FEATURES	BENEFITS
PVC Injected moulding construction	This process provides an extremely robust product designed to withstand the harsh environment that cones are subjected to on a regular basis.
Anti jamming	The flared bottom of the cone taper prevents the cones from jamming when stacked one on top of the other.
Dimples on Feet - ADDED FEATURE!	The 450mm Cone now feature dimples on the base for easier stacking and unstacking.
Flexible Base	Offers greater stability over uneven surfaces.
Weight	Lightweight - 1.5Kg
Visibility	One fluorescent colour throughout the body of the cone offers a better residual target in the event it is knocked over or damaged.
Reflectivity	Available with one x 100mm wide class 1 reflective collar or without banding.
Extended Feet	Provides extra clearance between the ground and the foot of the cone for enhanced stability in wet weather.

ADDED FEATURE - DIMPLES ON FEET

The feet now feature added dimples to aid in stacking and unstacking.
