

## INTRODUCTION

RTL's 900mm high Slimline™ PVC Cone lasts longer, is stronger and superior due to its many features and complies with NZTA'S Code of Practice for Temporary Traffic Management (COPTTM) standards.

### FEATURES

**PVC Injected moulding construction**

**Slimline profile**

**Permanent anti-theft branding option**

**Profile branding option**

**Single fluorescent colour**

**Flexible base**

**Anti-jam nodules**

### BENEFITS

Offers an extremely robust product designed to withstand harsh environment that cones are exposed to on a daily basis.

Provides a lower centre of gravity making it the most stable cone in windy and truck windblast conditions.

Moulded in the base of the cone makes thieves think twice before stealing it due to permanent identification. (Minimum order quantities apply and are subject to manufacturing tolerances)

Screen printed onto the cone enhances your company's profile and helps to identify your cones from others at a glance. (Minimum order quantities apply)

Throughout the cone body means that if the cone is knocked over or damaged, the exposed colour remains the same as the surface colour, offering better residual target value.

Offers greater stability over varying terrain.

Inside of the cone, prevent the jamming of cones when stacked together.

**100% NZ**  
KEEPING IT KIWI

**Recyclable**

**Recycle and help keep NZ Clean & Green**

**NEW ZEALAND MADE and Recyclable**

## BRANDING OPTIONS

RTL offer economical branding options to minimise theft, build up brand awareness and identify your products in the work place.

Options include screen printing and foot branding.

## WEIGHT OPTIONS

**4.5 KG Slimline™** cone for standard situations or everyday use in temporary traffic management.

**6.5 KG Slimline™** cone for high wind situations, ideal for long term sites and reduces the need for double stacking.

\*Weights are approximate and are subject to manufacturing tolerances.
