Line Marking Machine

For accurate lines on tennis courts, car parks, warehouses & sports fields.

The Dy-mark line marker machine is supplied complete with a windshield, directional arrows and masking wheels, assuring a sharp line every time. Just place Dy-Mark line marking paint into the machine and it is ready to use.

Line widths from 50mm-100mm are achieved by height adjustment.

An optional Side Liner attachment is available for making lines close to walls or machinery.

Made of steel, this machine will give years of reliable service.
